

MEGAN MULCAHY

Dallas, Texas | megan.mulcahy03@gmail.com | 4693283133

EDUCATION

Master of Business Administration, The University of Alabama

May 2027

Focus Area: Strategic Management

Bachelor of Science in Computer Science, The University of Alabama

May 2026

Focus Area: Cyber Security | Minor: Mathematics | Honors College | GPA: 3.70/4.00

EXPERIENCE

Information Technology Co-op, Mercedes-Benz U.S. International, Vance, AL

Aug 2024 to Dec 2025

- Engineered enterprise workflow systems integrating APIs, SQL databases, SharePoint, and Power Platform services
- Automated cross-system data pipelines, reducing manual processing workload by 60%+
- Built operational reporting systems supporting logistics, compliance, and decision workflows
- Implemented role-based access controls and audit logging across enterprise applications
- Delivered cybersecurity training to 400+ employees, translating technical concepts for business users

Lead Programming Instructor, ID Tech, Dallas, TX

May 2024 to Aug 2024

- Led and mentored instructors delivering Python and Java-based STEM curriculum
- Standardized instruction on programming fundamentals, debugging, and software development workflows

RELEVANT PROJECT WORK

AI Mortgage Document Intelligence & Automation System, Extern

Jan 2026 to Present

- Built an LLM-powered mortgage document processing system for automating extraction and analysis of 200+ page financial documents
- Designed RAG-based question-answering pipeline enabling semantic search over structured and unstructured data
- Developed FastAPI backend for document ingestion, processing workflows, and AI query services
- Architected modular AI system integrating embeddings and vector search for scalable retrieval and automation
- Implemented OCR and parsing pipeline using Tesseract, PaddleOCR, and PyMuPDF for financial document extraction

PhD Student Data Collection Portal, The University of Alabama, Tuscaloosa, AL

Jan 2026 to Present

- Developed full-stack data collection platform using React, Node.js, and REST APIs for structured academic workflows
- Designed PostgreSQL (Google Cloud SQL) backend for secure data storage, retrieval, and system scalability
- Containerized application using Docker for consistent deployment and environment reproducibility
- Implemented Agile development practices including sprint planning, Git workflows, and iterative feature delivery

Workflow & Analytics Automation Platform, Mercedes-Benz U.S. International, Vance, AL

Aug 2024 to Aug 2025

- Engineered enterprise workflow automation systems integrating APIs, SQL, SharePoint, and Power Platform Services
- Designed data pipeline automation workflows reducing manual processing time by 60%+
- Implemented secure system architecture including role-based access controls, audit logging, and system integrations

LEADERSHIP EXPERIENCE & INVOLVEMENT

Women In Technology | Alpha Delta Pi Sorority (Homecoming Chair) | Sigma Alpha Lambda Honors Society

CERTIFICATIONS

Microsoft Applied Skills: Streamline Business Workflows with AI Chat

Jan 2026

TECHNICAL SKILLS

Languages: Python, SQL, Java, C++, C#, Swift, JavaScript, HTML/CSS

AI / LLM: RAG, LLM APIs, Embeddings, Vector Search, OCR (Tesseract, PaddleOCR), Prompt Engineering

Cloud / Data: Google Cloud Platform, Docker, Linux, PostgreSQL, MySQL, MongoDB

Backend: Python, SQL, FastAPI, Node.js, REST APIs
